## Residual Solvent Compliance

PureAcacia Organic Coconut MCT Powder is manufactured without the use of any organic solvents at any stage of production. The process involves only certified organic raw materials—organic gum acacia, organic MCT oil, and silicon dioxide—as well as water as the sole processing aid. No chemical solvents are introduced, either directly or indirectly.

As such, no residual solvents are present in the final product. Furthermore, PureAcacia Organic Coconut MCT Powder complies with the Guideline for Residual Solvents ICH Q3C(R5) on impurities (Reference number: EMA/CHMP/ICH/82260/2006), as adopted by regulatory authorities including the U.S. Food and Drug Administration (FDA).
